clover

Simplify your retail business with Clover

Run your physical and online stores like the boss you are with Clover, a tailored, all-in-one point-of-sale (POS) system, so you can accept popular payment types and get smart tools to run and grow your retail business effectively.

Accept payments easily

Take major credit and debit cards, cash and contactless payments in-store, online and by phone.

Get clear on inventory

See what's selling and what's not. Manage expenses with reports on sales by item and cost.

Sell in-store and online? You're covered.

Sync sales and other data across physical and online stores.

Keep your customers and your business safe

Protect data with the industry-leading technology and fraud prevention tools you and your customers deserve.

Get paid easily and run your business better with Clover:

• Clover Virtual Terminal – Take payments by phone by securely keying customer card information into a web browser

• Customer Engagement – Keep customers happy and coming back with promotion and loyalty program apps available in the Clover App Market (clover.com/appmarket)

• eCommerce Integrations – Expand your business online with prebuilt integrations or use our developer tools to integrate with your website

• Clover Dashboard – Track sales, access reports, and manage your physical and online businesses through a single dashboard
