

# Meet the mini POS that always comes up big

An all-in-one POS system that takes care of your payment processing, your accounting, inventory and customer loyalty – anything your business needs now and as you grow.

## Small but powerful

Mini is small enough to fit into any space, but packs plenty of POS power to run your full house, front to back.

## Future-proof your business

Mini can be as minimal or full-featured as you want it to be. And it will always grow and scale with your business.

## Stay on top of your numbers

Track sales as they come in, wherever you are. Log in any time for info at a glance, from hourly sales and top-selling items to refund and discount volume.

Take payments using Ethernet, WiFi or LTE.

## Everything you need, at your fingertips

- **User friendly interface**  
Your staff can start taking orders with minimal training.
- **Inventory at your fingertips**  
Keep your inventory organized and accessible with categories and labels.
- **Building your tribe**  
Collect and manage customer contact info and marketing preferences, so you can engage with them on their terms.

## Essential apps for every business

The Clover App Market lets you customize your Clover Mini with do-it-all apps for accounting, inventory, marketing, gift cards and whatever else your business needs. Get started with:

### Register

Take orders, add or remove items, and accept payments.

### Orders

Look up orders and do more with them such as take payments or issue refunds.

### Customers

View customer information, transaction history, and marketing preferences.

### Time Clock

Manage employee schedules, overtime, timesheets, payroll exports, and much more.

### Customer Connect (DriveCX)

Get customer feedback at point of payment. Increase return visits with “come back soon” offers.

### Digital Loyalty

Drives increased customer spend and repeat visits. Send blast marketing messages via SMS, email or push to influence more sales.

### QuickBooks by Commerce Sync

Integrate daily sales information directly into Quickbooks.
