Newland payment terminal

Ensure you stay competitive with customer payment demands with the Newland N910 smart terminal. Utilizing talech, our premier point-of-sale software, Newland is a sleek and efficient payment companion that helps handle daily operations and boosts sales.

Easy Integration. Runs on talech, our robust payment processing software, which provides dozens of added features, analytics and more.

Keep Going. High-powered lithium battery for longer charge. Pair with optional docking station for more connection ports.

Wireless Freedom. Looks great on the counter or on-the-go. Full WiFi, 4G and Bluetooth transaction support.

Data Protection. Embedded Safe-T security solution adds encryption and tokenization to protect card payment data.

Dedicated Support. Full 24/7 email and phone assistance with answering technical and account questions.

Payment Flexibility. Accepts swipe and chip cards, contactless, gift cards and QR. At the counter, at the table, or anywhere.

On Display. Crisp 5" LCD touchscreen, embedded camera and adjustable backlight make navigation a breeze.

Combine with any of our external printers, cash drawers and peripherals to create your unique setup.
