

Poynt 5: Ultimate Mobility

A wireless, handheld smart terminal designed for a fast, easy, and seamless mobile checkout experience.

Our newest addition to the Poynt family pushes the envelope of convenience and mobility. The Poynt 5 has all the powerful features of the Poynt Smart Terminal including customization via the Poynt App Marketplace, as well as dedicated reporting tools, but is the size of a cell phone – perfect for taking payments anywhere. Poynt 5 interacts with the Poynt Smart Terminal right out of the box or can be used standalone!

Truly Mobile. A full-featured, handheld device that can work with the Poynt Smart Terminal or be used standalone. Anytime and anywhere payments helps speed up the checkout process.

Wireless Freedom. WiFi and 3G capabilities enable you to take the checkout to your customer, inside or outside.

Accept All Payments. Processes all payment types – magstripe, mobile/NFC cards, and mobile payments such as Apple Pay.

Powerful Security. With encryption and Safe-T, your customers' payment data is protected by the latest technology.

Strong Support. Includes a dedicated support team to help whenever needed, 24 hours a day, 7 days a week.

Robust Reporting. The HQ dashboard makes it easy to monitor sales, refund transactions, and settle with one click.

Small in size, big in flexibility

An All-In-One Smart Terminal

- Single card slot for magnetic stripe and EMV •
- Interactive 5" touchscreen
- Built-in speaker and microphone

Quick Facts

P5 is the perfect, holistic solution

With advanced payment technology and supporting a range of peripherals, Poynt 5 is a perfect replacement for a legacy standalone terminal.

Sleek technology – without complications

If you know how to use a smartphone, you can use Poynt 5. It is built on top of the Android operating system and designed with the customer in mind.
